SOLUTIONS ENGINEERING

Providing high-quality cross-disciplinary  
expertise in management, engineering,  
science, mathematics, consulting services,  
facilitation services, and privatization  
support services to government agencies.

# Flexible Solutions

TRUST THE RELIABILITY OF L.C. WRIGHT, INC.

Approaching twenty years of proven response and experience supporting Government programs.

L.C. Wright, Inc. is a woman-owned small business (WOSB) and an experienced Government Contractor providing professional engineering services for Department of Defense programs in the National Capital Region and Colorado Springs, Colorado since 1994. We are experts in applied mathematics, computer science, engineering, information management, physics, aeronautics, and astronautics and are dedicated to excellence with a commitment to success.

## CUSTOMERS

- Missile Defense Agency (MDA)
- NORAD/USNORTHCOM (N-NC)
- Air Force Space Command (AFSC)
- Defense Intelligence Agency (DIA)

## SUPPORT

L.C. Wright, Inc.'s solution engineering knowledge provides innovative, flexible, and responsive solutions utilizing documentation, systems engineering, program integration, and project management services. We support several large defense companies that rely on our expertise in scientific disciplines to respond to specific government needs.

## BACKGROUND

Dr. Lynne Wright, founder of L.C. Wright, Inc., has over 30 years of experience in program management, technical analysis, mathematical and computer modeling, development of battle management techniques, C3I concepts, sensor systems, and requirements of operational programs.

## Producing innovative and responsive results

### WHO WE ARE

The L.C. Wright Team is made up of diverse professionals from different information technology and engineering disciplines. We pride ourselves in a small team culture where individual skills are necessary and each employee is valued for their contribution.

WE ARE EXPERTS AT WORKING WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?
